

GOWTHAM PELLURU

Objective

Seeking a challenging career and be a part of progressive organization that gives scope to Enhance my knowledge, skills and to reach pinnacle.

Expertise

- Java Script
- React JS
- Redux
- Routing
- Node JS
- Express JS
- Next JS
- DevOps
- MS SQL

Education

Bachelor of Technology

Mechanical Engineering
N.B.K.R Institute of Science and Technology
2020

Certification

Advanced Certification in Full Stack Web Development
E&ICT IIT Guwahati and Intellipaath

Experience

Full Stack Web Developer | Onex9 Software | [02/2024 – Present]

- Developed an e-commerce and ERP Software with the technologies of ReactJs, Redux, RTK Query, NodeJs etc.

Data Analyst | Cyient Ltd | [02/2021 – 06/2023]

- Conducted extensive data analysis on consumer feedback data to identify issues with products and insights to inform business decisions.
- Developed and maintained dashboards using Advanced Excel. Automate the dashboards using a visual basic application.

Projects

Ecommerce

- Built an online eCommerce saree application using React.js, Redux, RTK query, Routing, and Razorpay for payments. The server API uses Express.js and Node.js, with DBMS using SQL and styling with Shadcn UI.
- <https://chennapatnampattucheeralaangadi.com>
- <https://sakhisarees.com/>

ERP Software

- Developed an ERP Software with features including point-of-sale (POS), inventory tracking, reports, and ledgers. Built using React.js, RTK query, Node.js, Express.js, and SQL for the database..
- <https://pos.onex9.in/>
- <https://onex9.com/>

Printing website

- Built a printing application for T-shirts, mugs, etc., using Fabric.js, React.js, Redux, RTK query, and Routing for the frontend. The server API uses Express.js and Node.js.
- <https://printferry.com/>

MERN

- Built a task management application using the MERN stack (MongoDB, Express.js, React, Node.js)
- Build an API that can sign up and sign in users based on data provided by the users when using the API.
- Implemented user authentication and authorization using JSON Web Tokens (JWT).
- Implemented CRUD operations for managing tasks and schedules. Advanced Excel.

Training program - Intellipaath

ReactJS

- Developed dynamic web applications using ReactJS, Redux, and JavaScript.
- Created reusable components and implemented React Router for client-side routing.
- Utilized Git for version control and GitHub for project management.
- Worked on RESTful APIs to extract JSON data.
- Familiarity with HTML, CSS, and Bootstrap.

Node.js

- Experience with Express.js framework for building RESTful APIs.
- Familiarity with asynchronous programming and Promises in Node.js.
- Knowledge of database management systems, such as MongoDB.

DBMS

- Developed and maintained database schema and stored procedures in Mongo DB Server.
- Modeled databases to ensure efficient data retrieval and maintenance.
